Visual Identity 🧐

Primary Logo

This logo should be used for the main face of BabeOnym's visual identity. It can be presented in the navigation bar, and can be presented in one of the four following colors based on the display themes users can choose from in their settings.

Babe  nym

Babe  nym

Babe  nym

Babe  nym

Secondary Logo

The secondary logo is the lone icon of the smiling baby head. It can stand as a simplified representation of the brand, such as icon buttons, favicons, and the mobile app cover. This logomark is mainly presented in white, but it can also be presented in one of the three following colors based on the display themes users can choose from in their settings.

Logo Spacing

When applying the logos to the application, there should always be a consistent amount of negative space around it.

Responsive Sizing

The Logos must be sized appropriately based on the web layout it's being scaled to.
